

WORKER PROTECTION STANDARD

March 2021

Dear Valued Agronomy Customer,

The Federal Worker Protection Standard (WPS) requires us to provide you with certain information before we apply any pesticide to your crop land. You will need this information to meet your requirements under this standard to provide protection to your family, employees, and yourself from pesticide contact.

The following pages list pesticides and serve as part of the information we need to provide to you for WPS. The list contains the pesticide EPA number, active ingredients, restricted entry interval, personal protective equipment, and notification requirements.

WPS also requires information be provided to you before entering your fields. This will take place during our conversation with you when we actually make the application order. This includes which field(s) we will be spraying, what day we plan to be there, and which pesticides we will be applying.

If you wish to have further information regarding the Federal Worker Protection Standard information, please go to our website at chs-herman.com or feel free to speak with any of our skilled agronomy sales representatives.

Thank you for allowing us to serve your agronomy needs.

Sincerely,

A handwritten signature in blue ink that reads 'Robert Ranum'.

Robert Ranum
Agronomy Division Manager
Crop Protection Lead

Federal Worker Protection Quick Reference Chart 2020

Recommended: Wear socks, shoes and CHEMICAL-RESISTANT gloves (such as Barrier Laminate or Viton) when working with any pesticides. Wear chemical-resistant headgear for all overhead exposure. **IN ADDITION:** Personal Protective Equipment (PPE) listed is for handlers, mixers/loaders or handlers of undiluted products should consult the label. Use of closed cabs and closed handling systems may allow modification of handler PPE (see label)

DISCLAIMER: This information is supplied as a service by CHS, Inc. which can in no way be held responsible for any misprints, omissions or incorrect information contained in the Federal Worker Protection Quick Reference Chart. This guide is for quick reference only.

Restricted Use Pesticide
